Technical Skills

- **Programming Languages:** C/C++, C#, Java, Python.
- **Server Side Scripting:** PHP, JavaScript, JSP.
- **Web:** HTML, CSS, Bootstrap.
- **SQL:** MySQL, Oracle.
- **Others:** Algorithm, Data structure, OOP, Servlet, Android.

Problem Solving Skills

- **Solved 200+ problems in UVa online judge [Username: [alawal](#)]**
- **Solved 50+ problems in HackerRank sites.**
 - [Link: <https://www.hackerrank.com/bdKing>]
- **Solved 50+ problems from rosalind sites:**
 - [Link: <https://github.com/bd-king/Bioinformatics>]

Projects

- **Payroll Management System:** It was my first academic Laravel project done for any management types of company. Admin can play a vital role e.g. employees salary, bonuses, fines & extra payment etc. Admin can also add rank, designation and rankwise basic salary.
 - [Link: <https://github.com/bd-king/Payroll-Management-System>]

- **E-Notice Board:** This web(JSP) project was for our dept. Because of technical support it is not running now. Admin can upload all kinds of exam news, vacation, scholarship news etc. I did the frontend part.
 - [Link: <https://github.com/bd-king/E-notice>]
- **Dx-Ball:** A small game project done with java. I added three level. One must overcome the first level to play in the second level.
 - [Link: <https://github.com/bd-king/Dx-Ball>]
- **Online Exam Taker:** It was my first academic android project basically for a class teacher. He/she can take exam from students and deliver the results to students immediately.
 - [Link: <https://github.com/bd-king/OnlineExamTaker>]
